

**Optineo Sweden** is a high tech industrial company working in the field of water purification and research, development & production.

**Optineo Sweden** through it's subsidiaries is working in the development and production:

Development

- Plasma Technology
- Polymer Engineering
- StormWater Filter Solutions

Production

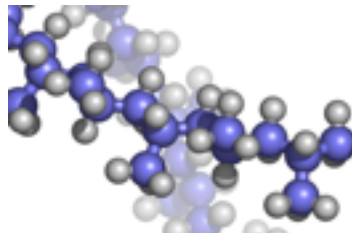

- Plasma treated material
- Water Purification System House Hold Market
- Water Purification System for the Mining Industry
- Water Purification System for the Recycling Industry
- Water Purification System for the Waste to Energy Industry
- Water Purification System for the Marine Industry
- Stormwater Filter Solutions

Our Solutions

Plasma technology

Polymer Engineering

Recycling Industry

House Hold Market

Waste to Energy Industry

Marine Industry
